

What Did You Get Out Of Strive

I heard about Strive by way of one of their flyers that I picked-up at my probation officer's building. I read it and it appealed to me, so I took it a step further and gave them a phone call. Now I am so glad that I did because I know they are what I need to help me improve myself. I have found a lot of what they teach to help me with my job seeking skills as well as my socializing skills and I would recommend their program to any and everyone, they are really good at what they do (they really know their stuff). I came here with no real knowledge of how to present myself, but I am now aware a little bit more of what it is I have been doing wrong and I owe it all to Strive New Haven Inc. and their entire staff along with the many speaker's who gave their valuable time for the cycle "102" class. I do try to pay attention to everything and everyone because I have heard some very interesting/informative facts. I plan to continue coming into the Strive office to help me further with my

What Did You Get Out Of Strive
job search as well as the social
skills I know I have loss due to one
reason or another, I cannot make
up to Strive what the staff has done
for me. I learned how to operate a
computer, I am still in the early stages
but it does feel good. I believe in my-
self now more than I use to, so that's
a big plus. I still know I have to
continue to do the right things I
have learned at Strive.

Sincerely
Robert
