

## What I Learned From Strive

Sajid

Strive really was informative for me. I have learned a lot about how to become a positive, productive member of society, as well as coping skills to learn how to communicate, with people in general, not only just in the workplace. I have learned a better way to speak, without using profanity, or i bonics. I found out that the appearance of people is more positive, when you are dress to look professional, and people will take me more serious. I learned that my attitude is probably more important than principles to me. Strive has taught me, how to receive respect when I am able to give it. I even learned more positive ways to interact with my son, be stern, firm, and fair, without him thinkin that I am upset with him, or reprimanding him, but given him, different ways to go about his endeavors, and still show me love. I feel that Strive has given me, and has taught me how to strive to be a better person, and to live a better quality of life.

Thank you, For every thing. Strive Staff..
