3 week Strive Experience Essay

Cycle III

The 3 week experience I had with STRIVE/ New Haven, Inc. was the best. Not only did STRIVE help me professionally, they help me personally too. I would tell anybody who is having trouble with the job market to go to the STRIVE program.

During the 3 weeks STRIVE has been able to help me become more employable by teaching me how to fill out an application properly, become more marketable to sell myself and package my skills so I can present myself in a interview.

To me STRIVE is more than just a program. STRIVE has become part of my life. The staff is nice and the peers treat each other like family. If there's one thing I'll never forget from the program is it's never personal, only business.

Honestly, STRIVE is not easy. If you don't take the program seriously, then there's no point in being there. I took this program seriously, so I know I'm more confident in getting a job now more than ever. Thank you STRIVE!
