

Ms. Deborah

29th of September, 2011

My three (3) week experience at STRIVE/NEW HAVEN INC. has been wonderful, informative; and has build great associations

My overall experience in the past three (3) weeks has been wonderful. The people at STRIVE has been very helpful; believing in structure; and leading by example, which when the head is right, the body will follow & be right as well. I have also been shown kindness by my classmates; their humor, & affection has made coming to class each and everyday a rewarding experience.

Being at STRIVE/NEW HAVEN inc has also been informative. I have learned about ~~nutrition~~ nutrition, in addition to doing better at job interviews. I have learned key components to having an effective application; also knowing posture, appearance, and attitude all make a difference in a first review of an interview.

Lastly, I have ^{established} ~~made~~ associations with my classmates, and members of the staff that will either turn into friends, references ~~or~~ or both. I appreciate my classmates from the very young to the elders in my group. I have come to respect each and every one for their talents, and their abilities to commit to a program, and find their way in this life. I am personally thankful for my journey, my time at STRIVE, it has been wonderful, informative, and very appreciative through my associations with staff and classmates.
