What Did I

Learn From  
Strike.

200 wr. ESSAY

Stephen:

To tell the truth I've learned so many things, great things over the last three weeks at Strike. But over all I gotta say that its ok to ask for Help! everyone can use a Helping hand at some point in there lives. I feel Strike Has giving me insight into key ways of how to gain and keep a job as well as becoming more marketable.

Before Strike I thought I was doing everything right or my best only b/c ~~it~~ that was how

I did things for so long. now I know how to fill out an application properly, I know what to ~~write~~ <sup>write</sup> and what the employer is looking for

and last but not least I understand how to disclose my past crim. hist. without giving out to much info as well as letting the employer understand that, that's not the person ~~who~~ who sits before him. to sum it up strike is

Awesome, Tough, Challenging, Informational and REAL! I'll have no problem firing back

some of my time & series to ~~write~~ <sup>access</sup> strike. Hey that's the least I can do well in conclusion,

Strike Has taught me the very essence of there NAME and that's to STRIVE! push further

until something good happens. keep things positive and that's how things will come back to me.

Life as well as your career is what you make it.
